BAY ST. LOUIS, MISS., FRIDAY, MAY 16, 1952

Wayne Alliston Elected President of Bay High PTA at Tuesday Meet

Observations...

The Hotel Reed will be the headquarters for the Airport Managers Convention to be held on May 22 and 23. Invitations were issued by the Mayor and the Board of Commissioners to city and county officials to be the guests of the airport managers at the convention. The airstrip, which was recently completed at no cost to the taxpayers, is located on the old Kiln Road, just south of Washington street on the West side of Highway 90.

State warrants totaling \$17,220.33 are in process of being mailed this week to the proper authorities of the incorporated municipalities of Hancock County, according to information received from William D. Neal, State Auditor. Payments to municipalities in Hancock County are as follows: Bay St. Louis \$15,502.82; Waveland \$7,717.51. These payments cover the distribution of the \$2,000,000.00 appropriated by the Legislature to the cities, towns and county seats of the State under the provisions of House Bill No. 1001. This distribution to the municipalities and county seats was made in accordance with the legislative formula as follows: \$1,500,000.00 to the incorporated municipalities on a population share basis and the remaining \$500,000.00 to the 91 county seats on an equal basis. A provision placed in the law relative to the distribution of the \$1,500,000.00 placed a ceiling of \$85,000.00 on the amount that any one city could receive, regardless of population. This limitation affects only the cities, Jackson, Meridian and Biloxi.

Each of the 91 county seats will receive \$5,494.50 from the \$500,000.00, in addition to the amount to be received from the \$1,500,000.00. According to the State Auditor, the \$500,000.00 will be distributed to the county seats immediately, but approximately \$10,000.00 will be held back from the \$1,500,000.00 to provide for subsequent adjustments brought about by discrepancies in population figures. These adjustments will be made as soon as possible, Mr. Neal said, and the remainder of the appropriation will then be distributed.

An outdoor Bingo game will be held Tuesday, May 20 at 7:30 on the Kiln Church grounds. The Bingo is being held for the benefit of the church's expenses for the new infirmary.

James Brent, director of music at Bay High is planning to renew his summer band program this year. Anyone who meets the requirements of one year's previous experience in music is invited to attend.

Congressional Sidelights

Congressman Wm. M. Colmer

SHOWDOWN IN KOREA

Nearly a year ago the masters of the Kremlin voiced through one of their hirelings, Mr. Malik, the possibility of a truce in Korea. The next day while discussing the general subject on the floor of the House I voiced the opinion that this was nothing more than another "Trojan Horse." I went on to reiterate that in my humble judgment this was just another part of the pattern of the Soviets in their objective of bleeding us white. I repeated what I had often pointed out, that Russia wanted neither war nor peace.

Now after making every possible gesture and meeting the Communists not half way but three-fourths or even ninety percent of the way, it has become apparent to our negotiators that Russia does not want a truce in Korea.

Therefore, our negotiators have opposed any further concessions and in fact, have delivered an ultimatum that they either take it or leave it. It had boiled down to this point. The Communists wanted Russia as a neutral observer to enforce the truce. They objected to our demand that no more air bases be built in North Korea and, lastly, the Communists would not agree to our demand that only those prisoners of war should be returned to the Communists who wanted to be returned. Communists finally agreed that Russia was not a neutral observer and therefore waived Russia's becoming an observer to enforce the truce. We waived the prohibition against the construction of air fields in North Korea, but our negotiators insisted that we did not waive our objection to forcing the Communist prisoners of war to be returned to the enemy against their will.

It would, therefore, appear that a showdown is inevitable. The ultimatum was delivered only after it had been approved by our allies of the United Nations.

It's Russia's next move. Just what she will instruct her Chinese puppets to do next remains to be seen. Our guess is that she will not accept our ultimatum as such but will further tend to prolong the negotiations and the confusion.

Holy Name To Receive Communion Monthly

On the second Sunday of each month, members of the Holy Name Society of Our Lady of the Gulf Catholic church will receive Holy Communion in a body.

Sunday, May 11, the members honored their wives and mothers by inviting them to attend Mass and receive Holy Communion with them.

After Mass, breakfast was served in Troop 217 Scout House and each guest received a corsage in honor of Mother's Day. The membership drive, now on an increase in new members, and it is hoped that all Catholic men of the parish will join.

Attend Convention

Rev. and Mrs. Schuyler M. Batson have been elected by the congregation of the First Baptist at the Southern Baptist Convention which meets this week in Miami, Florida.

There are six and a half million Southern Baptists in the Convention alone.

Reservations for the convention indicate that over 10,000 messengers will attend to represent their respective churches. The work of this convention will be merely to make recommendations to the churches of the Southern Baptist Convention. The convention exercises no authority over any of the churches, as each Baptist church is a separately and self-governed entity.

LIVELY LIONS ADD \$100 TO POLIO FUND

Approximately \$100 was added to the Lion's Club fund toward the purchase of a respirator for the use of polio sufferers through the benefit Pan Cake Supper sponsored by the Club last week.

Ed Lively, chairman of the Pan Cake Supper, said the success of the supper was due to the fact all materials were donated. A contest got underway at one table to see who could consume the most pan cakes.

John Kimball, with a record of 19, to say nothing of uncounted sausages and cups of coffee, was acclaimed the winner. Nearest runner-up at 14 pan cakes.

After the feast, there was still some unused flour, sausage and coffee which was given to the Pass High Home Making Department.

Reports are the Lions' Club has more than \$1200 in the bank to use for the purchase of the iron lung. A committee is working with local doctors and will purchase an approved respirator in the near future.

Is Welfare Abused

Almost every time Welfare is mentioned, someone will say, "The thing I resent is it subsidizes illegitimacy," or "The trouble with the program is that it does not go to the right people." Lot of folks are getting it who should not, and

a lot of folks who should be on can't get on.

Many of you, like myself, have repeated these statements even though we knew nothing whatever about it, so far as having definite knowledge of any specific person. Since I have taken over this program, I have gone back and taken an inventory of the people that I know personally, and so far as I have been able to recall, I cannot think of a single instance where illegitimacy has been subsidized, or old folks getting money they did not need. In any situation in life, and especially in a program such as this, there must be some abuse, for the 100,000 people we deal with are human beings and Good Americans and;

L W V Holds First Board Meeting

The League of Women Voters of Bay St. Louis had its first board meeting of 1952-54 Monday, May 5, at the home of Mrs. E. P. Kirkpatrick.

The president, Mrs. Paul Miller, was absent because of illness; and Mrs. Kirkpatrick presided.

Those present were Mrs. Kirkpatrick, Mrs. Paul Loub, newly elected treasurer, Mrs. John Husband, Mrs. Ernest Samuel and Mrs. Al Weinfurter and Mrs. J. Joyce, newly elected board members.

Mrs. Weinfurter, membership chairman, reported on the recent finance drive and stated that the results had been gratifying, since a total of 40 new members had

joined during the drive, making the total membership well over 100. She wished to give special recognition to the following members of her committee: Mesdames J. DeBlanc, C. Gremillion, M. Kohler, R. DeMontigny, Al Landers, R. Calogne, J. Joyce and E. Kirkpatrick. Mrs. Weinfurter said that although the drive was officially over, new members would be welcome at any time, and asked that the platform of the league, that is, intelligent and informed non-partisan participation in government, be remembered.

Mrs. Kirkpatrick read the program for the first state league convention which will be held in Natchez May 12-13. There will be nine members of the Bay St. Louis League attending. The program will include two business meetings, a luncheon at which the Natchez League will entertain, a tour of Natchez, ending with a cocktail party at OAKLAND, the home of Mrs. Al Grasing, and a formal dinner on the hotel roof at which the Honorable Heber Ladner will be guest speaker.

Mrs. Ernest Samuel gave a report on the national convention in Cincinnati which lasted for four days and was a miracle of efficiency and order. Nine hundred and fifty delegates, from every state in the Union and Alaska met, and in an atmosphere of keen intellectual endeavor and complete democratic accord thrashed out the procedure for the next two years. There were many round table discussions as well as the general meetings, and a panel discussion on "What Makes People Think".

Kenneth Galbreath, noted economist from Harvard university, spoke at the banquet on the "Limits of our Capacity." Mrs. Scott reported on the legislation in which the league had been interested during the last two years. The high spot of the entire convention was on Thursday night when the five presidential candidates met at the Taft Auditorium to answer questions that hundreds of thousands of people throughout the country had decided that they wanted answered.

The auditorium, Mrs. Samuels added, was thronged with people, the stage was crowded with microphones and cameras and sound trucks, etc. Mrs. John Lee, president of the National League, and Governor Warren answered questions on domestic and foreign policy.

Federal taxes on petroleum products totaled more than \$719,000,000 last year.

W M S Observes Special Day

The Women's Missionary Society of the First Baptist church observed W. M. S. Day, which was set aside all over the state, at their regular meeting Tuesday night.

Mrs. James Fillingame, program chairman, gave the devotional, and presented a number of life's extra comforts, such as flowers, travel folders and various things in addition to eating and sleeping.

Four aids supported by W. M. U. were then explained. Mrs. Murray discussed the Margaret Fund Stipends, children of Missionaries both at home and foreign, who are educated through these means.

As part of her program, Miss Mae Edwards spoke on the Retirement Plan for Aged Ministers and widows of former ministers; while Miss Loyette Webb discussed House Beautiful, W. M. U. training school in Kentucky. Concluding the program, Mrs. L. S. Fahlman spoke on Camp Garaywa.

Fifteen members attended the meeting.

NEW POWDER FULL USES

These days find the powder puff in new and unexpected places, doing jobs far removed from a dainty dip in a box of perumed face powder.

One new use of the powder puff is as a silver cleaner. The soft puff will not scratch. It reaches old corners, protects fingerails and does a fine polishing job.

As a flour duster, the powder

puff pats flour neatly on rolling pins, cake pans or breadboards without waste or spillage. You can store it in the flour canister.

As a pin cushion, a puff keeps pins at hand and saves scratches that come from groping in a box. Fasten the puff pin cushion to your wrist with an elastic band.

As a shoe-shiner, a puff spreads polish easily and evenly. A second clean puff adds a dazzling shine.

WHO ARE YOU

Accidents do not always happen to the other fellow. You can, if you are the unlucky one in an accident, avoid much worry and loss of valuable time, if it is easy to find out who you are. A card or notebook in your wallet or purse should tell:

1. Your name and address, telephone number and whom to notify in case of an accident.
2. The numbers of your life and accident insurance policies, with names of companies.
3. Your hospital insurance policy numbers.
4. Your social security number, if you have one.
5. Your driver's license.

For children, identification bracelets are practical. Take a note from the Armed Services. All active members usually have proper identification wherever they go.

BULB CARE

As soon as the foliage dies down, dig your tulip, Dutch Iris, narcissus and other hardy bulbs. Divide and replant immediately, or you can store them in a cool, dry place and plant them this fall.

CHRYSANTHEMUM CARE

Chrysanthemum plants need to be pinched back now. This one pinching is all you need, if you are growing the pom-pom types. If you are growing the larger-flowered types, you will have to

keep the side shoots pruned out. The fewer shoots left, the larger the flowers will be.

MULCHES FOR SHRUBS AND FLOWERS

A mulch is anything, as straw, leaves or loose soil, used to protect the roots of plants from heat, cold or drought. A mulch is especially beneficial to shrubs during the summer. A mulch around plants makes it easier to control weeds. During long dry periods, the plants that have been mulched are usually the ones that come through with the least damage.

Shrubs used in foundation plantings around your house will benefit from a good mulching. Use

some material such as cottonseed hulls, straw, Peat moss, pine straw needles, leaf mold, clippings of grass and clover. Grass and clover clippings will add organic matter to the soil. Weeds will usually grow through leaf mold faster than any of the other mulches. If you use grass clippings spread them 1/2 inch deep. Apply the clippings several times during the growing season.

In most cases, pine needle straw is preferred for mulching azaleas, Camellias and roses. A good mixture is made of sawdust and pine needles. If you use sawdust alone, add 1/2 pound of nitrate of soda to each bushel.

SIGN OF PROGRESS in the GULF SOUTH

INCREASED USE OF NATURAL GAS BENEFITS YOU

Anything that helps build the Gulf South... helps YOU

The continuing rise in the use of natural gas means more money in circulation... and better business for everybody in the producing states. Last year, for example, the money we paid for gas in the field amounted to nearly \$33,000,000. Thousands of residents

of the Gulf South shared in these payments—and then used them to buy food, and clothing, and furniture... to pay all kinds of bills and taxes. In this way, our purchase of gas actually contributed to the welfare of the whole area—and to you and your family.

County Agent's Notes

By HOWARD SIMMONS

DO YOU RAISE RATS?
I'll bet you don't purposely. But the chances are that you do raise them.

Poultry farmers especially should take steps to control these filthy, disease carrying, feed destroying pests. Rats may kill a whole brooder full of baby chicks in just one night.

Rats play havoc with stored grain too. In addition to eating plenty of the stored feed, they ruin more than they eat.

Control rats don't support them. Get rid of the rats the safe way. Warfarin is a relative safe, rodenticide when used according to directions. It must be eaten for several consecutive days before it is fatal. Rats don't get bait shy when eating warfarin. Keep it before them.

However, there is no use taking chances on killing the family dog or cat or chickens, place the warfarin where these cannot get to it. You can buy warfarin ready mixed or mix it yourself. A good mixture is one pound of 0.5 percent warfarin mixed with 19 pounds of coarse ground yellow corn meal.

Place about a cupful of the bait in a shallow open container where the rats usually feed. Check bait stands daily and keep the warfarin before the rats so they can eat all they want.

HOME GARDENING
Watch out for insect damage to growing garden plants. Insects can ruin a garden in a short time. These insects are much easier to get rid of when controls are started as soon as they appear in the garden.

Don't let the bugs get ahead of you. Check the plants in the home garden for insect damage and if any is present, apply insecticides immediately. For details on proper insecticides and method of application, see your county agent or Home Demonstration agent.

Insect control is just one of the many May gardening jobs. Others include harvesting, cultivating, fertilizing, and more planting.

When one crop is through, plant another. Don't leave an idle row in your home garden. Prune and stake your early tomatoes. Tie them to a five-foot stake and prune to not more than three stems. Get a copy of the Garden, Fruit and Flower Guide from your county agent or home demonstration agent for more information on home gardening jobs for May.

CHICKEN EATING TIME
The consumer wants chicken in the pan so don't keep them down on the farm.

Don't let your cockerels get too large. Most markets in Mississippi don't want broilers to weigh more than three pounds and would rather have them average about two and three-fourths lbs. Don't hold the broilers a day longer than necessary. Every day

Defense Digest

Next Saturday, May 17, will mark the annual observance of Armed Forces Day with many parades, ceremonies and programs scheduled throughout the southeast. The Navy, official sponsor of the occasion this year, ran into a bit of bad luck at the last moment. Gasoline rationing, brought about by the oil strike, threatened to wash out some of the more ambitious celebrations which featured movements of large numbers of tanks.

Control rats don't support them. Get rid of the rats the safe way. Warfarin is a relative safe, rodenticide when used according to directions. It must be eaten for several consecutive days before it is fatal. Rats don't get bait shy when eating warfarin. Keep it before them.

However, there is no use taking chances on killing the family dog or cat or chickens, place the warfarin where these cannot get to it. You can buy warfarin ready mixed or mix it yourself. A good mixture is one pound of 0.5 percent warfarin mixed with 19 pounds of coarse ground yellow corn meal.

Place about a cupful of the bait in a shallow open container where the rats usually feed. Check bait stands daily and keep the warfarin before the rats so they can eat all they want.

of Army and Marine ground troops, Air Force parachute drops and equipment, and spectacular demonstrations of Naval airpower. However, most strictly local observances will not be affected, particularly those developed by the recruiting services.

SUSPENSION OF Regulation "W" by the Federal Reserve Board last week is evidence that the wage-price stabilization effort is paying off. Regulation "W" required specified down payments on consumer goods purchased on credit. It was instituted as a feature of the Defense Production Act and limited the length of time to and was strictly an anti-inflationary device. Now, sufficient goods are on dealer's shelves and the inflationary spiral has been successfully discouraged that the Reserve Board lifted all restrictions on credit purchases for the time being. Governmental controls over real estate purchases, however, are still in effect and will likely remain.

PASTURES
Crimson clover saved for a seed crop or grazed until the end of the grazing season will volunteer back in the fall if it is handled right. After grazing is over or the seed harvested, disk the land and plant Sudan, millet or sorghum for grazing or grain. Demonstrations show that crimson disked into the soil will volunteer back better than if just left on top of the ground.

If the crimson seed is left on top of the ground, every time a shower comes, some of it will germinate and come up and die. Plan to plant temporary grazing crops immediately following disking. If this is not practical, disk each week until seed are to be planted. This will help conserve moisture.

Southeastern Manufacturers who have been finding it difficult to operate because of shortage of materials are now being taken care of through the allotment by the National Production Authority of the United States Department of Commerce of additional pounds of metal. For example, announcement has just been made that more than 36 million pounds of copper and 47 million pounds of aluminum were issued by NEPA divisions for supplementary allotments to relieve hardships in the second quarter of this year. Almost all of that material was issued to manufacturers over the country within the last six weeks.

The copper and aluminum become available through changes in military requirements and some turnbacks on non-use by other manufacturers. Applications under the hardship account are being taken by the Atlanta and Birmingham offices of the Department of Commerce.

PESTICIDES are taxing manufacturers' storage facilities, and unless farmers quickly lay in supplies to meet their minimum needs the makers may be forced to export large quantities originally intended for domestic use, according to Production and Marketing Administration experts. P. M. A. points out that delay by farmers in buying the pesticides they need may put a severe strain on distribution facilities of the agricultural chemical industry and—if delayed until the insects arrive—may result in heavy crop losses due to inability to get supplies at the last moment.

FOREST PRODUCTS, in the form of lumber, plywood, paper, poles, piling, ship timbers, etc., are playing a vital part in current defense activities. In the Southern Region of the Forest Service, national forest stumpage cut during the three-month period, January to March, amounted to 105 million board feet, 15 million more than the same period of 1951. Of the 105 million feet cut, 70 million was sawtimber, 24 million pulpwood, 2 million posts and poles, 2 million chestnut acid-

wood, 5 million distillate wood, and 2 million feet went into other miscellaneous products. The value is \$2,050,000. In addition to the timber cut from January through March, almost 122 million additional feet were sold for \$2,800,000.

CONFERENCES and clinics to increase understanding of the mentally ill are being conducted at selected Veterans Administration Hospitals. Conferences have been concluded at Lake City, Florida, Murfreesboro, Tennessee and Augusta, Georgia. More than half the VA's patients are mentally ill, and in the conferences psychiatrists and chaplains meet with the clergy to acquaint the public generally with the fact that mentally ill veterans can be rehabilitated as self-supporting citizens with good medical care and the understanding of their home communities.

Girl Scout News

Lord Baden Powell, who founded the entire Scout program, often spoke of it as the "Game of Scouting." Others have called it the greatest band of knights ever to be mustered since the ancient days of King Arthur. Scouting is both of these—a game in which millions of young people play a part; bands of helpful boys and girls in many countries all over the world.

A Girl Scout troop is different from other clubs in that every member makes the Girl Scout promise, puts into practice the Girl Scout Laws, belongs to a national and international organization, and wears the trefoil pin.

Here is the Promise: On my honor, I will try: To do my duty to God and my Country, To help other people at all times, To obey the Girl Scout Laws.

ATTENTION GIRL SCOUTS! Would you like to do useful and interesting things with other girls your own age? Do you like to camp and to explore, and to make things with your hands? Do you like stories and games and songs and dances? If yes, then send in your registration for Day Camp. You know you are to be allowed to stay one night, also. If you have your typhoid shots, you will be allowed to swim in the artesian lake, approved for that purpose.

These shots are given without charge to Scouts, by Dr. Shipp, and if you did not have any last year, three, a week apart, are required.

JAKE MORREALE RECEIVES LETTER

Kenelly's baseball team at Southeastern College closed out their 1952 Gulf States Conference slate with a stirring 7-5 win over Mississippi Southern last week.

The win gave the Lions two victories in the GSC and ten losses. The other win was over the highly-regarded Loyola Wolfpack and was the only loss suffered by the southern division champions in GSC play.

Home runs brought the Lions victory, as big Walt Andrew of Mayport, Fla., slammed out two round-trippers, while the reliable Lou Campos, Southeastern's all-GSC choice, and Freshman Jerry Salomone each garnered one homer.

The Green and Gold went on a hitting spree to knock out 14 hits, while Donald Ray Hood, the Sophomore pitcher from Denham Springs, and his reliever New Orleans' Emmett Rogers held the Southerners to seven.

Coach Kenelly also announced his letter winners for the season. They are as follows: Catchers—Joe Andrew, Mayport, Fla., and Noel Suarez, Gator; First baseman—Walt Andrew, Mayport, Fla., Norman Stafford, Franklinton; Second baseman—Jake Morreale, Bay St. Louis, Miss.; Third baseman—Jerry Scogin, Sildell; Shortstop—Jerry Salomone, New Orleans; Left field—Robert Menezes, Taunton, Mass.; Center field—Lou Campos, New Orleans; Right field—F. O. "Red" Chaney, Baton Rouge; Pitchers—Donald R. y Hood, Denham Springs; E. P. Leed, Thibodaux; Emmett Rogers, Louis Cook, New Orleans; Al Knatch, New Orleans, received a letter as manager.

HATS OFF!

And a special Girl Scout salute to this newspaper which has so kindly given us space, struggles with my spelling of proper names and with my poor arrangements of "make-up," and which even gave me a lesson in type-setting for which I say, Thank you, Mr. Elliott.

TROOP REPORTS BROWNIE TROOP 2, Beth Murtagh, Scribe

Some of the Brownies came early, cleaned up, opened the windows, turned on the window fan, and made ice water for the rest who came later.

We had our business meeting, Laurie Kiefer was president and Donna Levy, treasurer. We made Mother's Day cards, then we were back cleaning up again. We were taught the proper way to set a table, using dishes, silverware, etc. Soon we will have a cooking lesson, then be taught the correct way to sit at the table and eat the food. We closed with the Friendship Circle.

INTERMEDIATE TROOP 1

We practiced our investment ceremony which is to be held this week, and that consumed our whole period. Committees were appointed to meet with Mrs. John McDonald concerning camp publicity. Camp literature was given out and the meeting adjourned.
